

Summit County Government GIS Data License Fee Schedule

April 26, 2005

County-wide Spatial Datasets	Each of the County-wide datasets indicated below as having on-going or as-required maintenance frequency will be produced at the time of order fulfillment. The Assessor attribute data is produced at the beginning of each month and reflects the most current information available as of the date produced. The datasets identified as having static data maintenance requirements are not updated as a general rule. An executed license agreement and payment per this schedule must be received before orders will be processed. Data will be provided in shapefile format or ArcInfo export format (.e00) only. Image data may be requested in .tiff format or compressed MrSID format. The .tiff imagery is approximately 600Mb per dataset.			
Data Set	Approximate number of features	Maintenance Frequency	License Fee	Description
Parcel	21,500	On-going	\$ 600	Does not include Ownership, valuation or property characteristic attributes
Road Centerline	5,700	On-going	\$ 300	Includes road name, road number and address ranges
Address Points	17,100	On-going	\$ 400	Includes common address information and alias of address annotation locations
PLSS Sections	700	Static	\$ 50	Based on BLM GCDB Data
Topography (40' CI)	140,000	Static	\$ 50	Derived from USGS 30M DEM data
Topography (100' CI)	19,800	static	\$ 50	Derived from USGS 30M DEM data
Streams, Rivers (lines)	10,200	Static	\$ 50	Derived from USFS CFF / USGS DLG Data, Includes stream order data
Lakes, Ponds,Rivers (polygons)	2,500	Static	\$ 50	From USFS CFF / USGS DLG Data
County Zoning	1,000	As-required	\$ 250	Unofficial COUNTY Zoning, Does not include zoning classification in incorporated areas
Municipal Boundaries	12	As-required	\$ 20	Unofficial Municipal boundary information updated as annexations occur
Summit County Boundary	1	Static	\$ 20	Unofficial - Digitized from USGS 24K Quads
Land Ownership Classification	100	As-required	\$ 50	Derived from Parcel data / Assessor Records
Aerial Imagery (1999)	37 Quarter Quads	Static	\$ 25	License fees are per 1/4 quad area
Aerial Imagery (2004)	48 datasets (approx. quarter quad)	Static	\$ 100	License fees are per dataset, each is approximately 1/4 of a USGS 7.5 minute quadmap area
Property Attribute Data (database table)	This database table contains ownership, property characteristics, land and improvement valuation information. An executed license agreement and payment per this schedule must be received before orders will be processed. This database table will be provided as a .dbf table, or as a delimited text file. Orders for this dataset will be processed by the Summit County Assessor's office.			
Property Attribute Data (Adata)	33,000	On-going		Contains Ownership, valuation and property characteristic attributes
			\$ 225	one-time delivery
			\$ 675	4 quarterly updates
			\$ 1,875	12 monthly updates

<h2 style="text-align: center;">Area Map Datasets</h2>	<p>An area map dataset includes all of the datasets identified in the county-wide dataset section (except for Aerial Imagery) clipped to one of 25 pre-defined areas of the county matching the hardcopy area maps produced by the IS Department GIS staff, not all areas of the county are included in these datasets. This dataset will include only the Assessor attribute data pertinent to the area specified. These datasets will be produced only 2 times per year, March and October. An executed license agreement and payment per this schedule must be received before orders will be processed. Data will be provided in shapefile format only.</p>			
Data Set	Approximate number of features	Maintenance Frequency	License Fee	Notes
Area Map Datasets	Varies	2 times / year	\$ 200	Licensee selects from pre-defined areas (see index map) Not all areas of county available under this alternative.

The area included in each of the area map datasets is approximately 3.5 miles x 2.6 miles.

Hardcopy Products		Hardcopy products are developed by the County using GIS data. Certain hardcopy maps and GIS output are considered work product and not subject to distribution under the Colorado Open Records Act.		
Product	Size	Pages	Price	Description
Small QuickMap	8 1/2" x 11"		\$ 5	Customer selects an area of interest and the layers of information to be presented on these maps.
Large QuickMap	11" x 17"		\$ 10	Customer selects an area of interest and the layers of information to be presented on these maps.
Address Map Book	11" x 17"	250+	\$ 75	This book is frequently referred to as the "Plat Book". It contains 1"=400' scale maps of the developed areas of the county. It shows address, property description and other information for each lot.
Summer Recreation Map	22" x 34"	2	\$ 9.95	
Area Map	36" x 48"	25	\$10 each or 3 for \$25	This product incorporates the same 1" = 400' scale information as the Address Map Book, however it covers a larger area. Each map includes data from approximately 12 pages of the book.
Miscellaneous Plotting	Varies		\$4 / Sq. Ft	Reproducing other map projects developed for County use, i.e. adopted master plan maps.
