SCWF performs random sampling and analysis for hazardous waste characteristics and constituents of wastes provisionally accepted at the site. If your waste is selected for random sampling, a sample will be collected at the time of receipt of the waste. If the results of random sampling and analysis indicate that the waste was hazardous, the Generator shall be financially and legally responsible for retrieval, transport, and disposal of the hazardous waste at no cost to SCWF. By execution of this document, the Generator agrees to indemnify SCWF from, and agrees to defend SCWF against, all liabilities associated with the handling of Generator's hazardous waste. In addition the Generator shall be responsible for all cleanup costs associated with contamination of any SCWF facility as a result of delivery of hazardous waste to the facility.

VII. Certification

I hereby certify that I am the Generator, or I am authorized by the Generator to provide the information submitted in this form including any attached documents and to enter into this Agreement on the Generator's behalf. I have made a complete and thorough investigation of all matters relevant to completion of this form. This investigation included laboratory analysis, where applicable, performed in accordance with 6CCR 1007-3 Section 261.20(c) on a representative sample of the waste. All required information concerning the waste, including the results of all laboratory analyses has been provided in this form and the attached documents. I further hereby certify that such information is complete and accurate and that all known or suspected hazardous constituents/characteristics or safety hazards associated with the waste have been disclosed herein. I understand that the waste may be subject to random sampling and conditions described in Section VI of this form, that any waste that is non-conforming (along with the reagent with which SCWF has mixed the waste) will be returned to me, and that SCWF will not be responsible for expenses related to transportation, storage and handling of the non-conforming waste.
