These schedule adjustments mirror the schedule that was established for the spring/summer of 2009, and are a direct reflection of the current economic conditions and continued and significant decreases in sales tax revenues which fund the Summit Stage's fare-free service.

A careful evaluation of possible schedule changes was completed in an effort to reduce operating expenses significantly while minimizing the impact on our passengers. In addition, the Summit Stage has reviewed many of its internal procedures and identified the most cost effective practices to provide transit services to the community. Changes to driver scheduling will result in additional savings of over \$160,000 in taxpayer funds. With these changes we will maintain the appropriate number and frequency of routes along with the high level of service our residents and visitors have come to expect.
